How to reset a password for Holocentric Connect

If you have lost or forgotten your password, you can restore access to your account by creating a new password.

Change forgotten password

1.1 To reset your password, access the login screen and click **Forgot password**.

The screenshot shows the Modelpedia login interface. At the top center is a circular logo composed of blue mosaic tiles with a white snake-like shape winding through it. Below the logo is the text "Modelpedia". The main content area is a white box with a light gray border. Inside this box, the text "Sign in with your email address and password" is centered. Below this text are two input fields: the first contains the email address "harry.potter@hogwarts.com" and has a small 'x' icon to its right; the second is empty and contains the placeholder text "enter password". Below the input fields is a blue "Sign in" button. At the bottom right of the white box is a "Forgot password" button. At the very bottom of the gray background, the text "Copyright © 2008-2022 Holocentric. All rights reserved." is displayed.

1.2 Enter the email address associated with your Holocentric Connect account and click **Reset password**.
